

RAKSHAK

AUTOMATED LIQUID DISPENSER

Sun Softronic Systems

TECHNICAL SPECIFICATION:

Capacity: 1L
Material: ABS
Color: White & Gray
Dimension(mm): 240 (L)*135(W)*85(H)
Sensing Distance: 50mm
Intelligent Dispensing Function
Controlled by 100% Copper wounded Solenoid Valve
Sanitizer Level Indicator
Wall mount design
Optimized suction Filter
Power Supply: 24V Adaptor

PRODUCT FEATURES:

Plug and Play Model
Portable
Maintenance Free & Easy Refill
Operator free System
User Friendly
Long Lasting and Cost effective
Switching: Automatic

Automatic Hand Sanitizer: Adapting high-end electronic controlled infrared sensor technology and energy-saving devices with advantage of safety and stable. It enables people to prevent cross-infection from hand contact. Completely touch-free operation to avoid bacteria cross infection.

Intelligent Dispensing Function: Once hand placed below the unit, it will mist sanitizer for 3secs and it will turn off automatically.

Locking Safety Design: Equipped with a locking system, great for preventing dust and refilling made easy.
